THREAD GUDE TO PROFESSIONAL SEAMS

THE STRONGEST CONNECTIONS ARE PERSONAL RELATIONSHIPS — AND PEOPLE ARE OUR PRIORITY

The beauty of perfection is that it is hard to notice. Our sewing thread is such high quality that it is unnoticeable. Whether for designer collections, technical textiles or rugged outdoor fabric: it matters not. At A&E Gütermann, every individual stands behind it.

We – and our team – are there for you whenever thread and materials need to be perfectly matched. For any type of stitch or any length. For seams with elasticity, durability or the right appearance.

Our threads have the perfect properties, sew outstandingly and have high functionality. In addition, we provide service and comprehensive advice. No question is left unresolved – we give you know-how that takes you further.

We don't yet know what the thread of the future will be, but we're sure of one thing: We will produce it.

OUR VALUES

We think globally and act locally - for our customers around the world no matter what industry. What can they expect from us? Unlimited trustworthiness. With a partner that is at home on any continent. Being globally active requires clear principles. When it comes to our production standards, we make no compromises. "Made in Europe". That is our consistent promise of quality. You can be sure of it.

OUR VISION

"Seams unlimited" – that means complete sewing thread competence for all requirements and customers around the world. You can find the right product for any application in our industrial product range. That is our claim - and you can see how we measure up to it. If you should notice that your particular requirements are not one-hundred percent covered by our current product range, we welcome the challenge to do everything we can to find the perfect product for your purposes. Have you been hesitating to make an enquiry? Then don't wait any longer. Get in touch with us as soon as you can. We look forward to hearing from you.

You can reach us at:

Tel.: + 49 7681 21-0 or email to: contact@guetermann.com

EARN TRUST VALUE PERFORMANCE

WORK TOGETHER ACT RESPONSIBLY

A&E GÜTERMANN — A SUSTAINABLE AND STRONG CONNECTION

LIVE YOUR VALUES

Quality and sustainability along the entire added value chain creates true values - for you, for us and for coming generations. From mnagement to production staff, we are committed to safeguarding these values anew - day in, day out. And the central value for us here is: Respect. We express respect at our company daily: In the form of appreciation and attention towards our employees.

They are the foundation of our successful development and their health, safety and on-going training is a central concern for us.

We also show responsibility towards our customers and suppliers as well as towards our planet. Today and for the future.

THINK ABOUT TOMORROW TODAY

We are a global player. And the future of the earth is something we don't play with. Which is why we stand not only for worldwide seam competence, but also for responsibility towards

people and the environment. Sustainable production methods are standard for us because that is the only way to make global success long-lasting.

OUALITY IS SUSTAINABLE

For many years we have been investing in innovative technologies and manufacturing processes at all of our production locations in order to reduce any environmental impact in all areas - with noticeable success! For example, we have been documenting our production in accordance with the specifications and guidelines of Oeko-Tex Standard 100 for many years now. In addition we ensure minimal textile waste during production, low water consumption, highly economical use of dyes and chemicals and compliance with Europe's REACH chemical directive.

PRIZED WORLDWIDE — QUALITY FROM EUROPE

OUR PRODUCTION FACILITIES IN EUROPE

A&E Gütermann is present through its strong production at its headquarters in Germany and in Slovenia today. Our dense network of other production companies and subsidiaries, trade partners and efficient logistics ensure that our products arrive at the right place at the right time – guaranteed. With safety and certainty, wherever you are. We promise.

PASSION AND TECHNOLOGY

Our continuous product growth reflects your requirements. The ongoing optimisation of our manufacturing processes, consistent outstanding material quality and innovative product technologies ensure that the sewing thread from A&E Gütermann is among the best in the world. We place special value on perfect interaction between attractive appearance, tear resistance and sustainable business. When our existing processes hit their limits, we like to go that extra step further to achieve the best possible results for you.

OUR KNOW-HOW — YOUR ADDED VALUE

COMPREHENSIVE	EXCELLENT	COMPETENT ADVICE ON	RELIABLE
PRODUCT ADVICE	COLOUR SERVICE	SEWING TECHNOLOGY	AFTER-SALES SERVICE
 Broadly placed field service and in-house service Product catalogue and other product brochures ANECALC: Calculation of the thread use 	 Colour cards Thread sample box Colorlink Service: Dye to match Color Room 	 On-site advising or at Our Seam Competence Center Customised technical development 	Competent service teams available worldwide

CERTIFIED QUALITY MANAGEMENT

Our sewing thread manufacturing and the quality of the materials we use meet strict European regulations. Our production is certified according to DIN EN ISO 9001:2008 and ISO/TS 16949:2009.

Our sewing threads are flawless in the finishing as well as the final use of them because our suppliers also comply with the defined specifications in order to guarantee our standards when working with us. To meet all aspects of these requirements in full, A&E Gütermann voluntarily undertakes to be regularly inspected and evaluated by independent external certification institutes.

ANEBRAID For raised seams

Material:	100 % Polyester
Construction:	Continuous filament, braided
Areas of use:	Raised decorative seams on leather goods and shoes Upholstered furniture
Product benefits:	Good thermal tolerance thanks to heat-repellent preparation L = lubricated, for machine sewing WX = fully waxed, for hand stitching

ARTICLI	E	APPLICATIONS	MAKE-UP	ARTICLE CODE

Material:	100 % Polyamide 6.6
Construction:	Continuous filament, inner-bonded
Areas of use:	Upholstered furniture Suitcases Belts Accentuated quilting seams
Product benefits:	Extremely rub and abrasion resistant High reliability on automatic sewing machines thanks to inner bonding Excellent sewability Ideal for 2-needle machines Optimum durability

PERMA CORE® FR for flame-retardant seams ANTISTATIK EOR NON-STATIC SEAMS

Material:	100 % Polyester
Construction:	Core spun, flame-retardant finish
Areas of use:	For clothing that must be flame-retardant such as workwear and military clothing
Product benefits:	Abrasion resistance Suitable for multi-directional sewing Suitable for low tension sewing Suitable for automatic sewing machines Flame-retardant finish Melting point at 250 °C Perma Core® FR is certified under DIN ISO 15025 and thus suitable for use in clothing that

must meet Standards EN469, EN11612, EN11611 and EN14116
